

## **Interagency Committee on EMSC Research (ICER)**

ICER is a federal collaborative effort begun in the mid-1990's to improve the quality and quantity of EMSC research, to foster collaboration between federal agencies in highlighting EMSC research topics during development of research agendas, and to reduce barriers to the production of high quality EMSC research. Participating agencies currently include:

- Agency for Health Research and Quality
- Centers for Disease Control and Prevention
  - National Center for Injury Prevention and Control
  - National Center for Health Statistics
- Food and Drug Administration
- Health Resources and Services Administration
  - MCHB/EMSC Program
  - MCHB Research Program
  - Office of Rural Health Policy
- National Institutes of Health
  - National Heart, Lung, and Blood Institute
  - National Institute on Alcohol Abuse and Alcoholism
  - National Institute of Allergy and Infectious Disease
  - National Institute on Drug Abuse
  - National Institute of Biomedical Imaging and Bioengineering
  - National Institute of Child Health and Human Development
  - National Institute of General Medical Sciences
  - National Institute of Mental Health
  - National Institute of Neurological Disorders and Strokes
  - National Institute of Nursing Research
- National Highway Traffic Safety Administration
- Office for Human Research Protections
- Substance Abuse and Mental Health Services Administration
- Walter Reed Army Institute of Research
