

# Classic

*a passion for teeth*

**DentaQuest** is a 30-year veteran of the dental benefits industry. We currently service over two million members, and we have the experience and expertise to deliver a variety of network options and flexible benefit configurations that will deliver the strongest value for an employer's benefit dollar.

## **CLASSIC**

**Classic** is a dental HMO plan that offers comprehensive care through a network of over 1,300 participating dentist locations. With **Classic**, employees get the quality care they need, when they need it. When you select **Classic**, your employees will receive:

- ♦ Affordable premiums with a two year rate guarantee
- ♦ 100% coverage for cleanings (every six months), exams and x-rays
- ♦ No surprise costs—members receive a plan fee schedule that shows all covered services and their member fees (if applicable) for each
- ♦ No claim forms to fill out
- ♦ Direct access to participating specialists—no referral forms required

## **PLAN DESIGN**

**Classic** delivers savings by combining fully covered and deeply discounted services, including:

- I. Diagnostic and Preventive:**  
Includes examinations, cleanings, x-rays, and additional procedures that help prevent tooth decay and other oral diseases.
- II. Basic/Restorative:**  
Includes fillings, repairs to dentures and bridges, and extractions.
- III. Complex Dental:**  
Includes the replacement of missing natural teeth with dentures or bridges, and the repair of severely decayed or fractured teeth with crowns. Also covers endodontic, periodontal, and surgical procedures used to treat oral diseases with no waiting periods.
- IV. Orthodontics:**  
Includes braces for members and their families.

Participating dentists have also agreed to discount their usual fees by 20% for all non-covered services, including cosmetic procedures.

## **PARTICIPATION REQUIREMENTS**

**Classic** may be offered on a stand-alone basis or on a dual-option basis along with one of our PPO plans to give employees the opportunity to choose the program that best suits their needs. You may decide whether to offer **Classic** on either an employer-sponsored basis (employer contribution required) or a voluntary basis (no employer contribution required). To participate in this plan, 35% of a company's eligible employees must enroll.
